PROFESSIONAL SUMMARY

Product and project leader with 12+ years of experience in AI-powered healthcare, application security, enterprise integrations, and software delivery. Combines product ownership, development team leadership, and client management with hands-on engineering experience. PMP with degrees in computer science, management, and marketing communications.

CORE EXPERTISE

Technical product ownership; product planning; Agile and Waterfall delivery; software team leadership; stakeholder and client management; application security; third-party integrations.

PROFESSIONAL EXPERIENCE

Founder | Satranc Online

Feb 2018 - Present

- Founded Satranc Online, developing chess-playing AI and building the product and brand. The live tool supports multi-engine chess analysis for exploring positions and comparing engine assessments.

Senior Product Manager | Massive Bio

Apr 2022 - Oct 2022

- Led an AI-powered healthcare product focused on matching patients with treatment options and potential therapies.

Technical Product Owner | Invicti Security

Jan 2021 - Dec 2021

- Planned, led, and delivered integration features connecting Netsparker Enterprise and Acunetix 360 with third-party products and services, using Agile project management.

Expert Security Coordinator | Sony Electronics

Jun 2019 - Dec 2020

- Managed and coordinated global application security projects using Agile project management.

Senior Project Manager | Cevahir Teknoloji

Jan 2018 - Sep 2018

- Led software projects for the Awenpi product and clients including HAVAŞ, Oras Shipping, Istanbul Metropolitan Municipality, and LC Waikiki.
- Managed the development team and client relationships across Agile and Waterfall delivery.

Senior Project Manager | Ogoo Digital

Mar 2017 - Jul 2017

- Led software and SharePoint projects for Tadım, Domino's, and Airties, managing the development team and client relationships across Agile and Waterfall delivery.

PROFESSIONAL EXPERIENCE CONTINUED

Project Manager and Lead Software Developer | Gri Creative

May 2015 - Jan 2017

- Led dozens of software and website projects using Microsoft technologies for clients including Hilton, Migros, Fibabanka, and Koçfinans; managed the development team and client relationships.

Software Architect | Avikon

2012 - May 2015

- Led dozens of software and website projects, managing the development team and client relationships. Clients included İGDAŞ, Ford, Yudum Gıda, and Gaziantep Metropolitan Municipality.

Freelance Software Developer | Filika Tasarım collaboration

2012

- Designed and implemented three websites for Amerikan Hastanesi using C#, jQuery, .NET Framework 4.0, and SQL Server 2008.

Software Development Specialist | KoçSistem

Jul 2009 - Dec 2011

- Developed web-based leasing software for Yapı Kredi Leasing; maintained purchasing software for Ford Otosan; and built a sales activity application for KoçSistem using C#, .NET, PL/SQL, and SQL Server.

Birim Information Technologies | Software Development Intern | Summer 2008. Contributed to software update and maintenance automation using C#.

SELECTED INDEPENDENT PROJECTS

TableMind | Ongoing - Developing a no-code product for predictions from tabular data, risk scoring, what-if simulations, and AI-assisted executive reports.

Daily sports quiz games | Live - Built Footballerly, Formulaonerly, and related daily games around a reusable quiz engine, with daily puzzles, hints, and shareable results.
